Timeline - Program Reviews are a 2 year process
1) Program faculty starts **self-study** in the semester indicated in the table above. Self-study takes one academic year to complete and is due **June 15th** of year 1.
2) The following academic year, an **external reviewer** completes a **site visit** preferably by **Dec. 15th**, submits an external reviewer's **report**, and the department submits a **response** to the external reviewer's report by **April 15th.**
3) **Each of the three documents** (self-study, external reviewer's report, and department response) **are submitted electronically to the Dean, Provost, and the Director of Assessment** by the above given due dates.
4) The **Dean will review the three documents** by **June 30th** of year 2, **will provide feedback to the Provost and the department**, and the **Dean will feed the appropriate recommendations into the College's workplan for the following year(s)**.
