

WESTERN NEW ENGLAND | **WNE**
UNIVERSITY

STATEMENT ON DRUGS & ALCOHOL

2023 - 2024

PRESIDENT

Robert E. Johnson

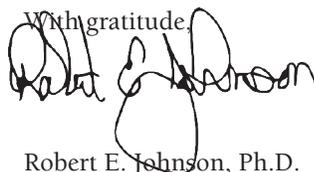

Fall 2023

Dear Members of the University Community:

Western New England University values the health and well-being of its students and employees, and supports federal, state, and local laws concerning drug and alcohol safety. The Student Code of Conduct and University policy prohibit the unauthorized use, distribution, possession, or manufacture of drugs and alcohol on campus or off campus at University-sponsored events. These provisions are in accordance with the Drug-Free Schools and Communities Act Amendments of 1989 and the Drug-Free Workplace Act of 1988. Violators of these drug and alcohol prohibitions are subject to federal, state, and local criminal prosecution in addition to appropriate University sanction.

WNE is committed to providing students and employees with drug and alcohol education, counseling, and referral for treatment, and Counseling Services (located in CSP 235) can provide resources and assistance to individuals who are affected, whether by their own use or by the use of friends or family members. The Center for Health and Well-Being can help by answering questions and/or referring you to an agency tailored to meet the needs of your situation; Counseling Services can be reached at 413-782-1221.

As a University community, WNE seeks to provide a healthful living and learning environment; toward this end I urge you to take the time to read and understand this important policy.

With gratitude,

Robert E. Johnson, Ph.D.
President

Policy

The general policies of Western New England University provide that the University campus and University activities are not a sanctuary from federal, state, and local laws. The policies of the University prohibit the unlawful use, possession, sale, distribution, or manufacture of controlled substances or alcohol on University property or as part of University activities.

Western New England University recognizes that alcoholism, drug addiction, and substance abuse may represent illnesses or conditions that require professional counseling, assistance, or treatment. Faculty, students, and staff with problems related to or stemming from alcohol or substance abuse or dependency are encouraged to utilize the services provided through the University or other sources of assistance. However, neither addiction nor abuse excuses any member of the campus community for violating the rights of others for neglecting or inadequately performing academic or job-related responsibilities.

Resources available to members of the Western New England University community

Faculty and Staff

The Employee Assistance Program (EAP) is available to provide confidential counseling, assistance, and referral:

Employee Assistance Program

Longview Associates
504 Cottage Street
Springfield, MA 01104
413-785-4228 or 800-225-2527

Students

All Western New England University students may take advantage of the following resources:

Office of Health and Well-Being

Center for Sciences and Pharmacy
Room 235
413-782-1211

Offers counseling, alcohol & drug education and other wellness information.

All Members of the University Community

Alcoholics Anonymous

24-Hour Hotline

413-532-2111

Al-Anon & Alateen of Greater Springfield

413-782-3406

Support group for anyone affected by a problem drinker.

Drughelp

1-800-662-HELP (4357)

A national toll-free "hotline" provides referral information for all areas of the country.

Narcotics Anonymous (NA)

413-747-0439, www.na.org
(24 hour referral)

Nar-Anon

310-534-8188 or 800-477-6291

www.nar-anon.org

Support for people affected by a drug user.

Counseling, Treatment, and Rehabilitation Programs

Many well-qualified professionals and programs are available to provide assistance to individuals with substance use disorders and dependency problems. Such services are generally available and the costs of participation may be covered in whole or in part by employee, family, or student health plans. No listing can cover all of the resources available in your community or close to your work location. Most hospitals and many health service providers in your community offer programs and services of counseling and treatment. Many churches and other religious or community organizations provide programs, counseling, and other services.

Standards of Conduct

The unlawful possession, use, or distribution of illicit drugs or alcohol by any student or employee on University property or as part of or in connection with any University activity is prohibited.

Student Handbook, Chapter Two:

The use of illicit drugs, synthetic drugs, marijuana and the abuse of prescription drugs can adversely affect the academic and personal life of the individual and has the potential to disrupt the academic and residential community of the University.

The possession, distribution, or use of illegal drugs, synthetic drugs, or narcotics, including but not limited to amphetamines, marijuana, cocaine, heroin, LSD, synthetic drugs, and any associated paraphernalia is strictly prohibited. This applies to prescription medications.

Alcohol Policy

Alcohol consumption is permitted at the University for individuals who are of legal drinking age (21). Individuals 21 and older may possess, purchase, and/or consume alcoholic beverages. University officials are authorized to enforce all state laws regarding the possession, use, and consumption of alcoholic beverages, including those that prohibit these activities by individuals under the age of 21. The University focuses on the responsible use of alcohol when consuming.

The following behaviors are prohibited under the Alcohol Policy:

- Individuals under the age of 21 may not purchase, possess, consume, or transport alcohol.
- Students of legal age may not purchase, provide, or serve underage students with alcohol, both on and off campus.
- Irresponsible use of alcohol including, but not limited to: intoxication, incapacitation, drinking games, any devices designed or intended for rapid consumption.
- Large quantities of alcohol or common supplies of alcohol (unless registered with the University). Alcohol should be in single serve containers.
- Operating a motor vehicle while under the influence of alcohol is prohibited and subject to University, criminal, and civil action.
- Possession, creation, or use of false IDs to procure alcohol.
- Consumption of alcohol within public areas including common outside and inside spaces, walkways, and offices unless approved as a University-sanctioned event.
- Students may not carry an open container of alcohol (in single serving or cup) in public areas.

- Decorations such as neon signs, display cases, and bulk containers that specifically advertise and/or promote alcohol.
- Any indication of impairment due to alcohol use, whether medical assistance is required or not.
- Alcoholic beverages may not be consumed or served in academic areas unless prior approval from the Division of Student Life.

Alcohol Use in Residence Areas

- Alcohol is permitted in all residence areas as long as the student is 21 years of age or older.
- If there is any indication that alcohol is being misused by any student, it will be viewed as irresponsible use. This includes students found in possession of kegs and other common sources of alcohol.
- The University reserves the right to inspect vehicles and personal belongings (e.g. bags, backpacks, laundry baskets, boxes, and other containers) if it is reasonable to believe that alcohol is present in or intended for misuse or for underage students. Alcohol will be confiscated and disposed of by University officials.
- Empty containers should be disposed of and not accumulate in residence areas. Trophy walls are not permitted.
- Students are responsible for the actions of their guests and visitors.

Student Disciplinary Sanctions

Student Handbook: Chapter Three: Student Code of Conduct and Conduct Process

The following list of sanctions is not inclusive of all possible sanctions and is intended to serve as a reference for most Student Code of Conduct violations:

- 1. Dismissal from the University:** Dismissal is permanent removal from University programs, facilities, and property without the privilege of re-admission or access. This sanction will be recorded in the student's file and on the student's transcript. Notations on the transcript will be for a minimum length of time, to be designated by the hearing officer at the time other sanctions are imposed. Once disciplinary action against a student has been initiated, including the appeal process, a hold will be placed on any requests for transcripts.
- 2. Suspension from the University:** Suspension is a separation from the University for a stated period of time or until specific conditions have been met. During the period of suspension, the student is not permitted access to University property, facilities, or programs. Suspension is noted in the student's file and on the student's transcript during the term of suspension. If suspension occurs during a semester in progress, University practice mandates that all courses become administrative withdrawals.
- 3. Removal from University Housing:** This sanction entails forfeiture of student housing privileges for a stated period of time, including visitation restrictions to any residence

area owned or operated by the University. If loss of residency occurs during a semester, the balance of the room and board fee is non-refundable and non-transferable.

- 4. Disciplinary Probation:** A serious sanction, disciplinary probation may be assigned for a stated period of time during which a student's ability to participate in cocurricular or University-sponsored activities, to use facilities, or to benefit from other University privileges may be limited or removed. During the probationary period, any violation by the student may be grounds for removal from University housing, suspension, or dismissal from the University.
- 5. Removal from University Sponsored Travel or Travel Booked Through the University:** This sanction involves the forfeiture of traveling privileges for a stated period of time or for a specific trip sponsored by or booked through the University. All students must be in good standing with the University to be eligible to participate in these initiatives. Examples of University-sponsored travel include, but are not limited to: international study abroad programs, alternative spring break trips, and extended trips by athletic teams of the University. Any deposit paid by a student for University-sponsored travel will be nonrefundable should the student be removed from the trip due to academic, disciplinary, or other reasons prior to departure.
- 6. Campus Restrictions and/or Modifications:** Re-assignments to housing or restrictions from varied residence areas may be imposed as part of sanction.

- 7. Fines or Restitution:** This sanction entails reimbursement to the University or a third party for damage done to person or property and/or accountability for specific acts of misconduct.
- 8. Censure:** Censure may be assigned for a stated period of time. It is a written statement given to the student for misconduct warranting a stronger reprimand than a simple written warning. Further misconduct of a related or similar nature may warrant probationary status.
- 9. Warning:** This is an oral or written statement to the student that they have violated the Student Code of Conduct. A warning may be taken into account in judging the seriousness or determining sanctions for future violations.
- 10. Educational Sanctions:** Educational sanctions are intended to promote student learning as a result of misconduct and may include counseling referrals, a formal apology, assignments to educational programs, a research or self-reflection paper or any other type of similar action. A failure to fulfill educational sanctions in a satisfactory manner may be cause for further accountability.

The University reserves the right to put the status of any sanction in abeyance. This means the status is put on hold.

Parental/guardian notification will be made for students who receive a status of censure, disciplinary probation, removal from residency, suspension from the University, or dismissal from the University.

It should be noted that disciplinary sanctions are not limited to the above, and that the above shall serve as examples of internal sanctions commonly considered. The University also reserves the right to take civil or criminal action through the courts as necessary and desirable.

State and Federal Laws and Sanctions Concerning Drugs and Alcohol

In addition to disciplinary sanctions imposed by the University, all students, faculty, and staff should be aware that federal and state laws mandate that distribution or manufacture of drugs or alcohol are serious crimes.

Conviction can lead to imprisonment, fines, and assigned community service. Courts do not lift prison sentences in order to allow convicted persons to attend college or continue their jobs. Felony and certain other convictions can prevent individuals from entering many fields of employment or professions and may have to be listed on applications for employment or admission to graduate or professional schools.

Many cities and towns in Massachusetts have local ordinances and regulations which prohibit public consumption of alcoholic beverages or consumption of alcoholic beverages on private property without the owner's consent. The Springfield Parks Commission prohibits public consumption of alcohol in its parks. Similar laws and regulations apply in most other states and in many localities.

Massachusetts law punishes sale or delivery of alcoholic beverages to persons under twenty-one with a fine of up to \$2,000 and one year imprisonment. Misrepresenting one's age or falsifying an identification to obtain alcoholic beverages is punishable by a fine of \$300 and loss of driver's license for 180 days. First conviction of driving under the influence of alcohol, marijuana, narcotics, stimulants, depressants, and glue vapors has a maximum penalty of a \$5,000 fine, one-year revocation of driver's license, up to two and a half years in prison, and mandatory alcohol rehabilitation. The severity of the penalty imposed increases based on prior offenses.

Individuals stopped for operating under the influence who refuse to take a breathalyzer test; or if a breathalyzer test is taken and the blood alcohol percentage is .02 or above for persons under age 21, or is .08 for persons age 21 or older, will have their driver's license immediately confiscated by the police officer and a temporary permit issued followed by the suspension of license within 15 days of notice. Massachusetts has criminal penalties for use of controlled substances and drugs, with penalties varying with the type of drug. In general, use of narcotic and addictive drugs, and drugs with high potential for misuse have heavier penalties.

Possession of drugs is illegal without valid authorization. While penalties for possession are generally not as great as for manufacture and distribution of drugs, possession of a relatively large quantity may be considered distribution. Under both state and federal laws, penalties for possession, manufacture, and distribution are much greater for second and subsequent convictions. Many laws dictate mandatory prison terms and the full minimum term must be served.

Massachusetts makes it illegal to be in a place where heroin is kept and to be "in the company" of a person known to possess heroin. Anyone in the presence of heroin at a private party or in a dormitory suite risks a serious drug conviction. Sale and possession of "drug paraphernalia" is illegal in Massachusetts. Under federal laws and some state laws, participation in drug-related criminal activity can result in seizure or forfeiture of personal property and other assets utilized in conjunction with or stemming from the proceeds of the illegal activity. In addition, conviction of a drug-related offense may entail civil fines and denial or revocation of certain licenses and benefits.

Persons convicted of drug possession under state or federal law are ineligible for federal student grants and loans or for participation in federally sponsored research grants or contracts for up to one year after the first conviction, and up to five years after the second; the penalty for distributing drugs is loss of benefits for five years after the first conviction, for 10 years after the second, permanently after the third.*

Under federal law, distribution of drugs to persons under age 21 is punishable by twice the normal penalty, i.e., a mandatory one-year prison term; a third conviction is punishable by mandatory life imprisonment. These penalties apply to distribution of drugs in or within 1,000 ft. of a college or school. Federal law sets greatly increased prison sentences for manufacture and distribution of drugs if death or serious injury result from use of the substance.

A listing of some of the federal penalties for certain drug-related offenses, as summarized by the federal government, is printed for your information at the end of this statement.

** In accordance with the requirements of the Drug Free Workplace Act of 1988, as a condition of employment, any employee who is engaged in the performance of work under a federal grant or contract must notify the University if he or she is convicted of a drug related offense not later than ten days after conviction; students who receive Pell and certain other federal grants are subject to similar conditions and must report any conviction of a drug-related offense to the U.S. Department of Education within ten days of the conviction if the offense occurred during the period covered by the grant.*

Cannabis is not allowed on the Western New England University campus.

Health Risks from the Use of Illicit Drugs and Abuse of Alcohol

The use of illicit drugs and the misuse of legally obtained drugs and alcohol can cause serious and permanent risk to life, health, and functioning.

In addition to the risks to oneself, the impairment of judgment, mental functions, or coordination caused by use or consumption of alcohol or narcotics and other drugs may contribute to accidents and serious injuries to others.

Alcohol Effects: Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death.

If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms including severe anxiety, tremors, hallucinations, and convulsions.

Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and intellectual disabilities. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

Controlled Substances Effects: There are many serious and potentially irreversible or life-threatening effects from the use of controlled substances. A summary of some of the effects of the use of controlled substances, as summarized by the federal government, is reprinted for your information at the end of this statement.

New License Revocation Provisions

For Drivers 21 Years of Age and Above

Automatic License Suspension: Drivers who refuse to take a chemical or breath sobriety test will have their license seized on the spot. The license will be suspended for at least 30 days.

Drivers who register a Blood Alcohol Content (BAC) of .08 on the breath test will have their license suspended for 180 days.

Drunk Driving Penalty: The penalty for conviction of drunken driving, in addition to the automatic loss of license before trial, is a fine of from \$500 to \$5,000, loss of license for one year, and mandatory attendance in an alcohol program.

For Drivers Under 21 Years of Age

Blood Alcohol Content: A BAC of .02, essentially a zero tolerance level, is established for underage drivers. The intent is that underage drivers with any alcohol in their blood will automatically lose their license.

Breath Test: Underage drivers who refuse to take a chemical or breath test will automatically lose their license for up to three years plus 180 days.

Using Fake Identification/Attempting to Purchase Alcohol/Transporting Alcohol

A person convicted in court of any of the previously mentioned offenses will automatically lose their driver's license for 180 days. This is true even if the altered or fake identification is not their driver's license. The license suspension is in addition to the court imposed penalty.

Other Penalties: Massachusetts law calls for the following penalties upon conviction of a first offense for the following:

- Providing alcohol to a minor: fine of not more than \$2,000;
- Purchasing or attempting to purchase: fine of \$300;
- Any person who transfers, alters, or defaces an identification card or license; makes, uses, carries, sells, or distributes false identification: fine of not more than \$200 or imprisonment of not more than three months;
- Any minor found transporting alcohol: fine of \$50.

OFFENSE	LICENSE REVOCATION PERIOD	
	OLD	NEW
Breath test refusal	120 days	180 days
Under 21 driver refusal or 2nd offense for adult	120 days	3 years + 180 days
Third offense or more refusal of breath test	120 days	5 years - Lifetime
Registers .08 on breath test or .02 for under 21	90 days	30 days/210 days
First offense conviction	1 year	1 year
Second offense conviction	2 years	2 years
Third offense conviction	5 years	8 years
Fourth offense conviction	10 years	10 years
Fifth offense conviction	No provision	Lifetime

FOR UNDER 21 DRIVERS	LICENSE SUSPENSION PERIOD
Registering .02 BAC	210 days + sanctions* (30 days)
Refusal of breath test	3 years + 180 days*
Convicted of OUI at .08	Minimum 7 months
Fake ID, transporting, or attempts to purchase alcohol	180 days per offense/Fines

* In addition to these penalties, an under 21 driver refusing or failing the breath test must complete an alcohol program or face an additional 180 day license suspension.

HOW THE PENALTIES HAVE CHANGED FOR DRUNK DRIVING IN MASSACHUSETTS		
CONVICTION	OLD LAW	NEW LAW
First Offense Fine Incarceration ¹ License Suspension	\$100 - \$1,000 maximum 2 years up to 1 year	\$500 - \$5,000 maximum 2.5 years up to 1 year
Second Offense² Fine Incarceration ¹ License Suspension	\$300 - \$3,000 minimum 14 days; up to 2 years up to 2 years	\$600 - \$10,000 minimum 30 days, maximum 2.5 years ⁴ up to 2 years
Third Offense³ Fine Incarceration License Suspension	\$500 - \$1,000 minimum 90 days 5 years	\$1,000 - \$15,000 minimum 150 days, maximum 5 years 8 years
Fourth Offense (Felony) Fine Incarceration License Suspension		\$1,500 - \$25,000 minimum 1 year, maximum 5 years 10 years
Fifth Offense (Felony) Fine Incarceration License Suspension		\$2,000 - \$50,000 minimum 2 years, maximum 5 years Lifetime

¹ New mandatory minimum sentences may be served in a special facility for rehabilitation of drunk drivers if state implements such facilities.

² Law looks back 10 years for priors.

³ May now be tried as a felony.

⁴ For the second offense, there is actually a minimum of 60 days, however under circumstances, this will sometimes equal 30 days served.

FEDERAL TRAFFICKING PENALTIES

DRUGS/SCHEDULE	QUANTITY	PENALTIES	QUANTITY	PENALTIES
Cocaine (Schedule II)	500 - 4999 gms mixture	<p>First Offense: Not less than 5 yrs, and not more than 40 yrs. If death or serious injury, not less than 20 years or more than life. Fine of not more than \$5 million if an individual, \$25 million if not an individual</p> <p>Second Offense: Not less than 10 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$8 million if an individual, \$50 million if not an individual</p>	5 kgs or more mixture	<p>First Offense: Not less than 10 yrs, and not more than life. STATE DRUG PENALTIES

UNLAWFUL MANUFACTURE, DISTRIBUTION, POSSESSION OF DRUG WITH INTENT TO DISTRIBUTE OR MANUFACTURE

	FIRST OFFENSE	SUBSEQUENT OFFENSES
CLASS A	State imprisonment for up to 10 years and a fine of not less than \$1,000 nor more that \$10,000	Mandatory minimum sentence of 3.5 years and a fine not less than \$2,500 nor more than \$25,000
CLASS B	State imprisonment for up to 10 years and a fine of not less than \$1,000 nor more that \$10,000	Mandatory minimum sentence of 2 years and a fine not less than \$2,500 nor more than \$25,000
CLASS C	State imprisonment for up to 5 years and a fine of not less than \$500 nor more that \$5,000	Mandatory minimum sentence of 2.5 years and a fine not less than \$1,000 nor more than \$10,000
CLASS D	State imprisonment for up to 2 years and a fine of not less than \$500 nor more that \$5,000	Mandatory minimum sentence of 1 year and a fine not less than \$1,000 nor more than \$10,000
CLASS E	Jail term for up to 9 months and a fine of not less than \$250 nor more that \$2,500	Jail term for up to 1.5 years and a fine not less than \$500 nor more than \$5,000

DISTRIBUTION OF DRUGS TO MINORS

CLASS A	Mandatory minimum sentence of 5 years and a fine not less than \$1,000 nor more than \$25,000
CLASS B	Mandatory minimum sentence of 3 years and a fine not less than \$1,000 nor more than \$25,000
CLASS C	Mandatory minimum sentence of 2.5 years and a fine not less than \$1,000 nor more than \$25,000

SALE, POSSESSION, OR MANUFACTURE OF DRUG PARAPHERNALIA WITH INTENT TO SELL

To Persons Over 18	Mandatory minimum sentence of 1 year and a fine not less than \$500 nor more than \$5,000
To Persons Under 18	Mandatory minimum sentence of 3 years and a fine not less than \$1,000 nor more than \$5,000

POSSESSION

Heroin	First offense—up to 2 years imprisonment and a fine up to \$2,000 Subsequent offenses—mandatory minimum sentence of 2.5 years and a fine of up to \$5,000	
Marijuana or Class E	First offense—up to 6 months imprisonment and a fine of up to \$500 Civil offense (one ounce or less) no incarceration. Fine of \$100 Subsequent offenses—up to 2 years imprisonment and a fine of up to \$2,000	
Cocaine Base	First offense and quantity is 5 gm or more mixture	Not less that 5 years, but not more than 20 years; fine of at least \$1,000
	Second offense and quantity is 3 gm or more mixture	Not less that 5 years, but not more than 20 years; fine of at least \$1,000
	Third offense and quantity is 1 gm or more mixture	Not less that 5 years, but not more than 20 years; fine of at least \$1,000
