------------------------------	------------------------	----------------------	--------

4. A recording can include several files. In this example, there's a video file, a transcript file, and an audio-only file. Hover your mouse over a file and click its Download icon to save it to your computer:

00:01:03	Recording 1 3 files 6 MB	
Shared screen with s	speaker view 👤 🧷 👕	5 MB
Audio only		424 KB
Audio transcript		549 B

Video files will have a filename that ends with .mp4 , Audio files end with .mp3 and transcripts end with .vtt The most important of these is the video file, although the audio transcript can also be used in Echo360.
