

- Sensor-activated airflow shield that eliminates urinal splashback
- Improves hygiene and reduces bacteria spread in high-traffic restrooms
- Cuts cleaning labor and maintenance needs
- Retrofits in minutes onto existing urinals

TAM	SAM	SOM
12 million urinals in the U.S.	~9,000 high-traffic venues (airports, stadiums, amphitheaters)	3% capture = 270 venues (~12,150 units)

Feature	Function	Benefit
Blower	Provide high, directed airflow	Creates the airflow shield that prevents splashback and reduces cleaning frequency
Built-in Battery	Powers each blower module	Eliminates external wiring and reduces maintenance complexity
Flexible Tubing	Adapts to multiple urinal geometries	Installs and removes easily for cleaning, and fits a wide range of commercial urinal shapes
Ultrasonic Distance Sensor	Detects user presence and activates airflow automatically	Saves energy, increases battery life, and ensures the system only runs when needed

CleanStream

RETROFIT KIT

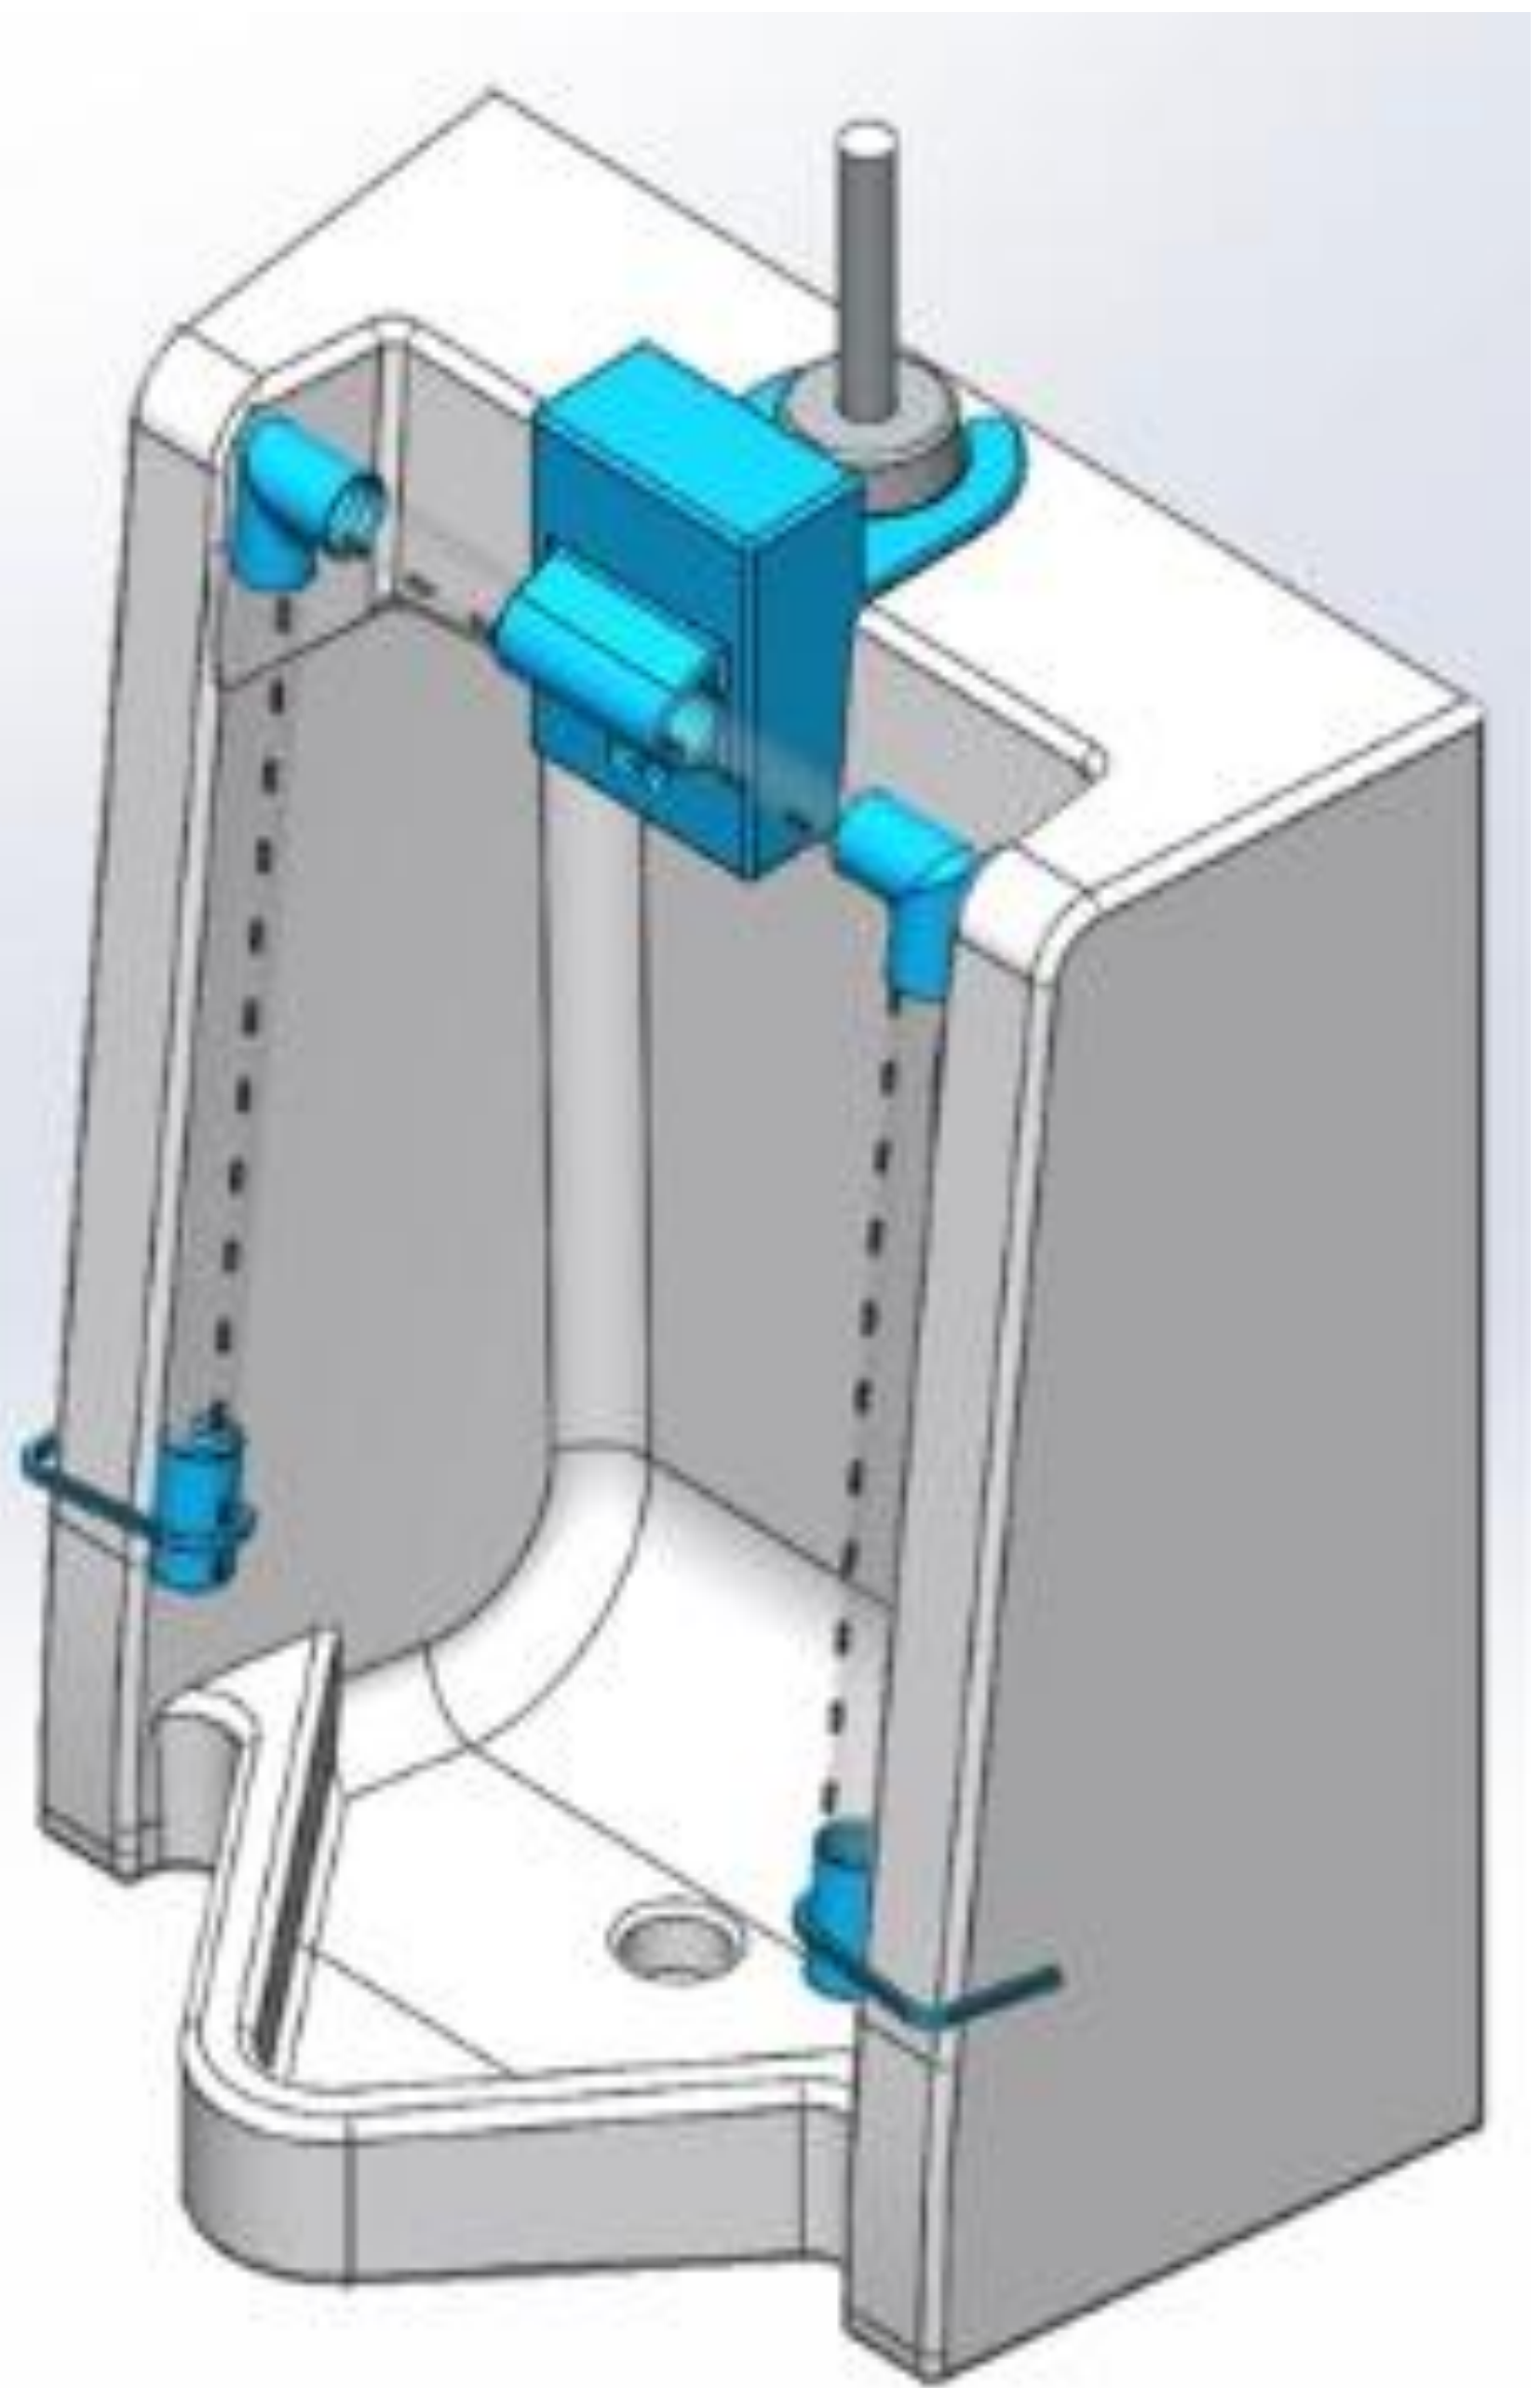

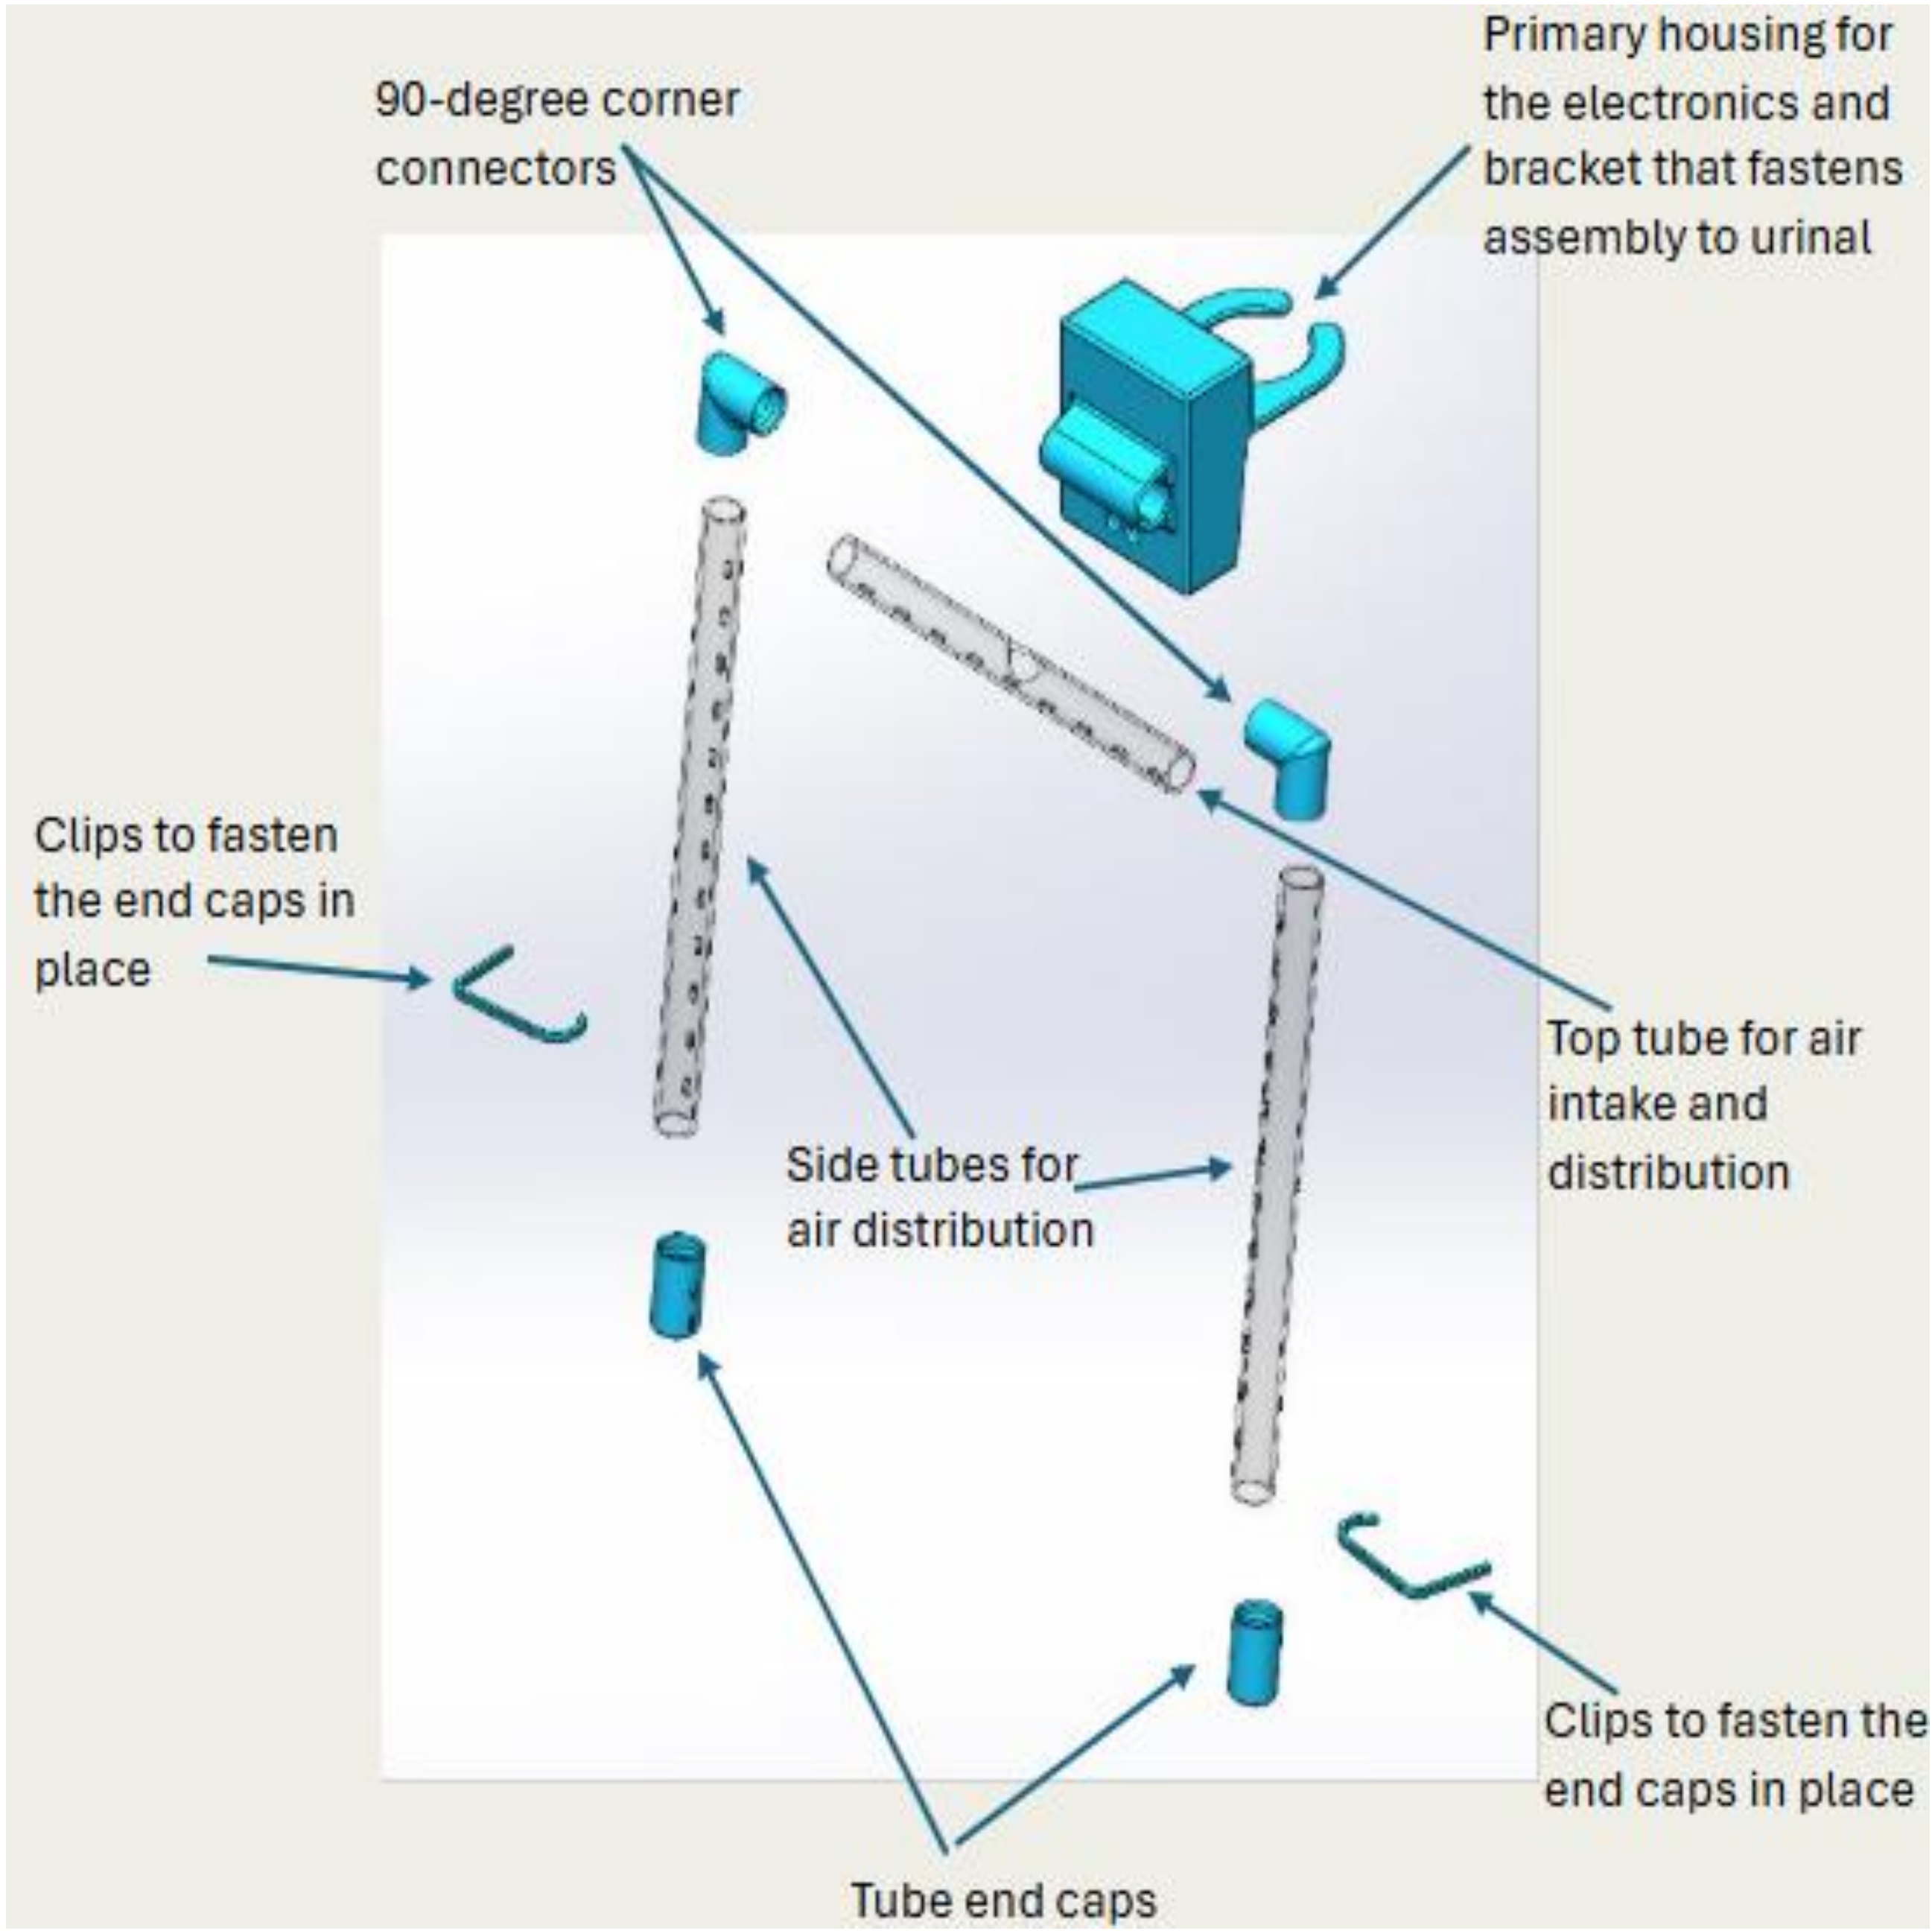

CLEAN RESTROOMS • ZERO SPLASHBACK

MSRP

\$249.99

3 Year Cumulative Sales

\$2.7 Million
