When seeking medical assistance, the reporting individual or group needs to remain with the student (provided it is safe to do so) until medical assistance arrives. This ensures that you can relay pertinent information and observations to first responders so that appropriate care may be administered. You may be asked to share information pertaining to your friend's name, any known medical diagnosis, or if you are aware if they took any medication. This information will be vital for first responders.

## Fire Safety Violations

Residents are cautioned against creating a fire hazard or situation that endangers others. Non-approved electrical equipment will be confiscated and may result in disciplinary action. Candles, incense, halogen lamps, gasoline/kerosene tanks, or any flame- or heat-producing items are strictly prohibited and will be confiscated.

Excessive wall hanging and overloaded electrical sockets are also considered fire hazards. All electrical appliances and equipment authorized for use within the residence halls must bear the mark of an approved testing laboratory (e.g., UL, FM, etc.).

If a resident has an electrical concern in their room, the resident must submit a work order. Use of firefighting equipment for any purpose, except for which it is intended, is prohibited and is a

violation of state law. Impairment of the firefighting system could cause loss of life and significant damage to personal belongings and University property. Students who participate in such activity will be subject to disciplinary action.

To ensure fire safety, evacuation drills are held at least once per semester in all residence halls and areas. It is important for residents to familiarize themselves with the evacuation procedures to avoid panic in the event of an emergency. Participation in drills is mandatory. Violation of any aspect of these regulations will result in disciplinary action.

In case of an alarm, residents should first touch their door to feel if it is hot, and also look under their door for any smoke seeping in. If it is safe to evacuate, students must leave immediately by way of the nearest exit.

Residents should not use elevators (if available) during a fire alarm. Residents should assemble outside at the Emergency Assembly point, which is at least 50 feet away from the building, not in the fire lanes, since these must be kept clear for fire equipment. Residents should not re-enter the building until Campus Police allows them to do so.

To the extent that personal safety permits, Residence Life staff will assist residents with evacuation; however, it is the sole responsibility of each resident to evacuate whenever an alarm sounds. Residents should NOT wait for a Residence Life staff member to tell them to evacuate. Any resident who does not leave a building when an alarm sounds will be subject to disciplinary action.

In addition, the City of Springfield Fire Inspector inspects the residence halls and areas on a quarterly basis. Facilities Management Staff escorts this individual through the residence halls and areas. These inspections may or may not be announced.

## Guests/Visitors Policy

A guest is any person who is not a student at the University. All students are responsible for the actions of their guests and are subject to accountability through the conduct process.

The presence of an overnight guest in the residence areas must not exceed two (2) consecutive nights or four (4) nights in any seven-day period. Any indication that a guest is abusing this policy or utilizing University housing as a place of residence may result in discipline, including the guest being restricted from University property and accountability for the student host. The University reserves the right to remove a guest from the campus at any point.

## Health and Safety Inspections

Residence Life Staff conduct room inspections in the residence halls throughout each semester. The intent is to ensure that there are no hazardous materials and/or prohibited appliances in the rooms. Generally, students will receive 24-hour notice before the inspection. However, notification of inspection time and date need not be posted. Students do not have to be present for the Residence Life Staff to enter their rooms. If a violation has been identified, the student will be notified and given 48 hours to correct the matter (i.e. remove the item). The University's interest is to provide a safe and healthy community to all resident students, and it requires each student's full cooperation. It is important to remember that the actions or decisions students

make in their rooms can have an impact on the other members of the community in which they are living.

## Music/Amplified Sound Policy

Use of amplified sound is regulated and may only be used in connection with an approved campus or student organization event taking place. All noise levels must be maintained at a reasonable level.

## Pets

All animals are strictly prohibited inside residential facilities, except as allowed under the Service Animal Policy or Emotional Support Animal Policy. Guests may not bring pets inside the residential facilities.

## Quiet Hours in Residence Areas

Each residence area has quiet hours, beginning at 10:00 p.m. on weeknights and at midnight on weekends. All individuals in those areas, including visitors, are to respect the enforcement of quiet hours. Given the number of students living in any given area, quiet hours are intended to promote an environment conducive to study and rest. This is a group responsibility, in that each resident has an obligation to monitor themselves and confront others who may be too noisy. If a resident attempt to ask a neighbor to respect quiet hours and is unsuccessful, they can contact a Resident Advisor for assistance. There are also extended quiet hours during finals week. Courtesy hours are in effect 24 hours a day, 7 days a week to support the living and learning community. A fine or other sanctions can occur for excessive noise during this time frame. University staff reserves the right to determine what constitutes excessive noise or an unreasonable interruption adversely impacting the living environment and to intervene on that basis.

## Health and Safety Inspections

Residence Life Staff conduct room inspections in the residence halls throughout each semester. The intent is to ensure that there are no hazardous materials and/or prohibited appliances in the rooms. Generally, students will receive 24-hour notice before the inspection. However, notification of inspection time and date need not be posted. Students do not have to be present for the Residence Life Staff to enter their rooms. If a violation has been identified, the student will be notified and given 48 hours to correct the matter (i.e. remove the item). The University's interest is to provide a safe and healthy community to all resident students, and it requires each student's full cooperation. It is important to remember that the actions or decisions students make in their rooms can have an impact on the other members of the community in which they are living.

## Safety & Security Related

- If a Student has reason to believe that University property is in need of repair, they should utilize the University's online work order system to initiate a request for service. This is found in Connect2U.
- If a Student believes that the condition of University furniture could cause harm or injury, they should immediately notify University personnel, and should stop using the item until it is checked. An online work order should also be completed and the comments section should indicate the Student's belief that the item is unsafe for use.
- A Student should lock and secure their assigned living space each and every time the Student leaves the premises. Additionally, even when present, a Student should lock their assigned living space so as to prevent intrusion.
- A Student remains fully responsible for what occurs in their assigned space, particularly if the Student fails to secure the living space.
- A Student shall not modify, tamper with or alter any lock, locking mechanism, door and/or window allowing ingress and egress to their assigned living space. A Student is responsible for the costs of repair and/or replacement for any damages and/or missing University property occurring as a result of such modification, tampering and/or alteration.
- If not present, the Student remains fully responsible for what occurs in their assigned living space, particularly if:
  - They failed to secure their living space before departure, thereby allowing access and/or egress by others in their absence;
  - They failed to secure their living space by modifying, tampering with, or altering any lock, locking mechanism, door and/or window allowing access and egress to the assigned unit;
  - They departed from their living space and left other person(s) present and unsupervised.
- Sprinkler heads in personal or community living space must not be touched or tampered with for any purpose.
- No items should be stored in access/egress routes (hallways, stairwells) as well as the foyers in Plymouth Complex and Gateway Village.

- Room door postings/displays are limited to one message board and a small door tag for each occupant. Doors may not be wrapped or fully covered with paper.

- Emergency equipment such as fire alarms, smoke detectors, fire extinguishers, sprinklers, exit doors and exit signs are provided to promote the safety of all residents. Such equipment should be used only for legitimate purposes. Unacceptable use and/or misuse of this equipment may result in a Student being charged for the repair and replacement costs of the equipment, a monetary fine and be held accountable under the Student Code of Conduct.
- All Students are expected to immediately evacuate the building when an alarm or detector is activated and to proceed to the designated emergency assembly point or other location, if so determined at that specific time. Students are expected to participate in any and all emergency evacuation drills.

- When an alarm or detector has been activated, University staff reserves the right to check the living space to ensure that Students have vacated the premises. A Student's failure to evacuate when an alarm sounds may be held accountable under the Student Code of Conduct.
- The University provides window treatments in every housing unit. Students are not permitted to hang their own curtains or other window treatments.
- Possession and use of laser cutting machines, 3D printers or other such machinery is not permitted in any University residential facility. The residence halls do not provide the appropriate space and ventilation for use of such machines as they often require exhausted chemicals and vapors being released into the air. The University reserves the right to require the removal of other similar machinery that may pose similar health and safety hazards.
- Decorative lighting (as in rope/bead lights or small holiday lights) are permitted, but cannot be woven through ceiling panels or ceiling grid work.

## Window and Banner Policy

Banners may not be hung from windows or on the side of residential buildings without approval from the Office of Residence Life or Senior Vice President of Enrollment Management and Student Life. The University reserves the right to remove posted materials in public view that may be deemed threatening, offensive, insulting or might otherwise lead to incivility between members of our community.

## Unforeseen Circumstances

The University reserves the right to close residence facilities (or portions thereof) and/or food service operations without reimbursement to the Student in cases of emergency, acts of God, other unforeseen circumstances, including but not limited to pandemics and epidemics, as determined by the University.

# CONDUCT PROCESS

## Introduction

All University students are obligated to conduct themselves in a manner compatible with the University's function as an educational institution and suitable to members of the University community. The University may at any time exclude a student or improve disciplinary sanctions on a student for violations of the student code of conduct. The Student Code of Conduct and conduct process is administered under the general direction of the Assistant Vice President and Dean of Students and day to day responsibilities are managed by the Associate Dean of Students.

## Determining Accountability

The standard of proof for any violation of the Student Handbook is based upon the preponderance of the evidence. This means that based on the information available, it is more likely than not premise that a violation occurred.

## Conduct Process

For purposes of the conduct process, an individual who is the subject of a complaint is referred to as a “Respondent” and the individual making the complaint or alleged to be the victim of a conduct violation is the “Complainant”.

Western New England University views misconduct intervention as an opportunity for one-on-one interaction with two intended outcomes: (1) to modify or stop certain behavior and (2) to help the student understand why their actions are unacceptable in the community. This framework gives students the opportunity (and responsibility) to compare their personal standards of behavior with a different set of standards – those established by Western New England University. Students are to understand their level of responsibility for individual actions; our responsibility is to assist in providing methods for more positive behavior. The goal of a conduct intervention and review, is to help students understand and acknowledge their obligations as members of this community and to advance the University’s educational mission by defining and establishing certain norms of behavior.

The University encourages open and honest communication between members of its community. Most conflicts can be resolved independently by the individuals involved; students are encouraged to confront issues of disagreement or conflict and to explore joint solutions. In addition, the University provides resources to individuals who need assistance in informal conflict resolution. Those resources include Peer Advisors, Resident Advisors, and professional staff within the Division of Enrollment Management and Student Life and Public Safety.

Any member of the University community may report an incident by a student(s) or student organization(s) that allegedly violated the Student Code of Conduct. Reports may be made on or on behalf of any member of the University community. For cases involving Sex Discrimination and Sex-Based Harassment, the process in the Title IX Policy & Grievance Procedures will apply.

University conduct reviews are internal and are not an extension of any external judicial system. The University may initiate conduct proceedings regardless of pending civil or criminal action involving the same or a different set of circumstances. A conduct review may proceed before, simultaneous with, or after external investigative or judicial action, and the University is not bound or impeded by any action taken by external authorities. Conduct reviews are fundamentally fair to students and are notably different from those used in a civil or criminal proceeding.

## Initial Screening

The Director of Community Standards, Policies & Conflict Resolution (or their designee) (the “Director”) reviews all incident reports and supportive materials provided. The Director will determine if the charges have merit and/or if they can be disposed of. The Director will determine if the matter should be resolved through a conduct review. Alleged violations of University policy(ies) are noted and an Administrative Officer is assigned to provide a more detailed review and meetings with students involved. The Director will compile the information from all reports submitted by University personnel and statements by witnesses (if applicable) for the Administrative Officer to utilize in meeting with a student(s).

## Notice to Student

Alleged violations will be presented to the student in writing via university issued email. The student will be notified of the incident date (if known), brief description, and the date, time, and location of meeting. When notified, students are required to attend all student conduct reviews. If the student does not respond or fails to appear, the conduct process shall still occur.

## Parents/Guardians and Attorneys

Only procedural questions are discussed with a parent and/or legal guardian while a Conduct Review is pending. All questions or concerns (written or verbal) from one or more individuals acting in the capacity of an attorney are referred to the University's Legal Counsel. All substantive questions, concerns, or comments concerning student conduct, as well as any written correspondence, including the filing of an appeal, must come directly from the student(s) involved. Attorneys may not attend any student meeting. Parent(s) and/or legal guardian(s) may not attend any student meeting (unless a student is a minor) while a Conduct Review is pending, during the timeframe where an appeal may be submitted, or while an appeal is pending.

## Standard Conduct Review (up to removal from Residency)

In many cases, the Respondent will meet with an administrator. The Respondent discusses the matter and is given the opportunity to review all materials and discuss their perspective of the situation. The administrator shares the alleged violations and the Respondent either accepts responsibility for each alleged violation, is found in violation of the violation by the administrator, or is found not in violation. Each violation is determined independently. Based on any alleged violations, the Respondent and administrator can discuss a status and potential sanctions or fines. Within three business days of such meeting, the Respondent will be sent a confirmation letter with the summary of the review.

## Conduct Review (consideration for suspension or dismissal)

In instances where information leads the University to look at suspension or dismissal as a potential outcome, the Respondent will engage in an introductory meeting (pre-hearing) to review the process, review materials that led to the conduct review and answer questions pertaining to the process. This process is more detailed than a standard conduct review. The Respondent's failure to appear for a pre-hearing meeting may result in the scheduling of a hearing without the opportunity to review the information beforehand.

### *Conduct Review Procedures*

- The Administrative Officer receives all paperwork. The students' academic schedules are reviewed for a mutually convenient meeting time.
- The Respondent receives notice of the review including: date, time, location, witnesses and advisor name.
- Information is then shared with the Hearing Officer: this is the individual who will determine if the Respondent should be held accountable and for which violation(s).
- On the date of the review, the Hearing Officer presides over the process and audio records the meeting.
- The Respondent provides, verbally and in writing, an opening statement.

- The Administrative Officer reads an opening statement.
- The Administrative Officer invites witnesses in to verbally share their information. Questions for all individuals are channeled through the Hearing Officer
- The Respondent provides a closing statement.
- The Administrative Officer provides a closing statement.
- The Hearing Officer concludes the review.
- All notes from the Administrative Officer, the Respondent, and the Advisor are collected by the Hearing Officer.

## Advisors

Any student who is engaged in a Conduct Review (consideration for suspension or dismissal) may seek assistance from an Advisor of the student's choice. The Advisor must be a member of the University community (current student, faculty member, or staff member) and may not be legal counsel or acting in this capacity.

Advisors are permitted to review all material provided to the Respondent (with the Respondent present), subject to applicable records disclosure laws, and attend meetings and reviews, but may not speak during a Conduct Review. The Hearing Officer, at their discretion, may seek out clarification or information from the Advisor.

## Notice of Decision

The Hearing Officer will notify the Respondent of the decision (and sanctions, if any) within one week of the date the Conduct Review(s) hearing is/are concluded for the alleged misconduct. A decision will be provided by email.

## Sanctions

When a party is found responsible for violating the Code of Conduct, a sanction will be imposed. It is the goal of the University to implement sanctions that are educational and contribute positively to personal growth and student well-being. Students are encouraged to engage in the process and complete the sanction(s) by the deadline to avoid further consequences.

The following sanctions are meant to serve as a guide in the conduct process. This is by no means an exclusive or exhaustive list. Each case is unique and is assessed based on various factors, including the nature of the violation, prior conduct history, and the specific circumstances involved. This individualized approach ensures that sanctions are equitable and relevant to the situation at hand.

Sanctions of disciplinary probation, removal from University housing, suspension from the University and dismissal from the University may be shared with employers if requested. Other professional organizations and certifications (i.e. bar review) may require full release of all records on file.

## List of Minimum Conduct Sanctions:

- Dismissal from the University:** Dismissal is permanent removal from University programs, facilities, and property without the privilege of re-admission or access. This sanction will

be recorded in the student's file and on the student's transcript. Notations on the transcript will be for a minimum length of time, to be designated by the hearing officer at the time other sanctions are imposed. Once disciplinary action against a student has been initiated, including the appeal process, a hold will be placed on any requests for transcripts.

- B. **Suspension from the University:** Suspension is a separation from the University for a stated period of time or until specific conditions have been met. During the period of suspension, the student is not permitted access to University property, facilities, or programs. Suspension is noted in the student's file and on the student's transcript during the term of suspension. Students may request that the notation be removed at the termination of the suspension. If suspension occurs during a semester in progress, University practice mandates that all courses become administrative withdrawals.
- C. **Removal from University Housing:** This sanction entails forfeiture of student housing privileges for a stated period of time, including visitation restrictions to any residence area owned or operated by the University. If loss of residency occurs during a semester, the balance of the room and board fee is non-refundable and non-transferable.
- D. **Disciplinary Probation:** A serious sanction, disciplinary probation may be assigned for a stated period of time during which a student's ability to participate in co-curricular or University sponsored activities, to use facilities, or to benefit from other University privileges may be limited or removed. During the probationary period, any violation by the student may be grounds for removal from university housing or suspension or dismissal from the University.
- E. **Removal from University Sponsored Travel or Travel Booked Through the University:** This sanction involves the forfeiture of traveling privileges for a stated period of time or for a specific trip sponsored by or booked through the University. All students must be in good standing with the University to be eligible to participate in these initiatives. Examples of University sponsored travel include, but are not limited to: international study abroad programs, alternative spring break trips, and extended trips by athletic teams of the University. Any deposit or other costs paid by a student for University sponsored travel will be nonrefundable should the student be removed from the trip due to academic, disciplinary, or other reasons prior to departure or is dismissed from a trip while it is underway.
- F. **Campus Restrictions and/or Modifications:** Re-assignments to housing or restrictions from varied residence areas may be imposed as part of sanction.
- G. **Fines or Restitution:** This sanction entails reimbursement to the University or a third party for damage done to person or property and/or accountability for specific acts of misconduct.
- H. **Censure:** Censure may be assigned for a stated period of time. It is a written statement given to the student for misconduct warranting a stronger reprimand than a simple written warning. Further misconduct of a related or similar nature may warrant probationary status.
- I. **Warning:** This is an oral or written statement to the student that they have violated the Student Code of Conduct. A warning may be taken into account in judging the seriousness or determining sanctions for future violations.
- J. **Educational Sanctions:** Educational sanctions are intended to promote student learning as a result of misconduct and may include counseling referrals, a formal apology, and assignments to educational programs, a research or self-reflection paper or any other type of similar action. A failure to fulfill educational sanctions in a satisfactory manner may be cause for further accountability.

The University reserves the right to put the status of any sanction in abeyance. This means the status is put on hold.

Parental/guardian notification will be made for students who receive a status of disciplinary probation, removal from residency, suspension from the University or dismissal from the University.

## Appeals

Incidents that result in disciplinary probation, removal from residency, suspension from the University or dismissal from the University are available for appeal. Respondents are not entitled to a re-hearing of the case. Respondents may seek one review only on the basis of one or more of the following:

- a procedural error that unfairly and materially affected the outcome of the case;
- the discovery of new information that could reasonably be expected to alter the decision and was not available at the time of the hearing; or
- the sanction is inconsistent with the gravity of the offense.

A Respondent wishing to file an appeal must submit a written request to the Assistant Vice President and Dean of Students through the Guardian Conduct Software within seven days after the date that the notice of decision was emailed to the Respondent. The request must state the grounds for review and provide any additional information that the Respondent deems relevant to the appeal.

Reviews will be made by an Administrator who will review a report of the hearing and the Respondent's appeal submission including any additional relevant information provided by the Respondent. No hearing will be held on an appeal. The Administrator can affirm the original findings and sanction(s), or can impose a new decision and sanction(s). The decision of the Administrator is final and binding.

## Modification of Community Standards Procedures

The University retains the right to determine, in its sole discretion, if it will address a report of misconduct outside of these procedures when the safety of the University community is at risk, if the material facts are undisputed, if there are extenuating circumstances involving any party, or if the Senior Vice President of Enrollment Management and Student Life, in consultation with appropriate administrators, determines, in their sole discretion, that it is otherwise in the best interest of the University and/or the community to do so. The Director may modify the procedures after taking into consideration the support and privacy needs of the parties and/or other potential hearing participants. This may include, but is not limited to, alteration of the hearing room, use of multiple rooms, video-conferencing equipment, or other electronic means. The timely resolution of allegations that surface at specific points in the academic year (e.g. summer and winter intercessions, shortly before the end of classes and/or commencement exercises) may also require modification in the administrator availability is significantly affected. Sanction type and sanction terms are not limited to what is expressly outlined solely in this document.

## Misconduct of Students Who Are Affiliated with the University for Non-Academic Reasons

Enrolled students who are also affiliated with the University for non-academic reasons when the University is not in session (including, but not limited to: participation in senior week, campus employment, semester break, athletic pre-season training, vacations, and summer lodging for special circumstances) are expected to abide by all standards for conduct while in that participation in events and/or campus residency is at the discretion of the University, the decision of the Administrative or Hearing Officer is final and binding. If the decision includes removal from University housing, departure is expected within 24 hours of verbal notification. For graduating seniors, this accountability may include forfeiture of the privilege of participation in any and all commencement events.

### Interim Measures

At any point in time prior to the final resolution of charges, WNE may take interim action of a protective and/or remedial nature, including but not limited to, suspension or issuance of a “no contact order.” Other possible interim measures include: removal or relocation of living arrangements, banning respondent from areas of campus, and temporarily suspend the respondent from one or more WNE activities or program.

For temporary removal or relocation from residential locations, the Associate Dean of Students or Director of Residence Life, as designated by the Dean of Students, are responsible for issuing interim measures.

In cases involving specific code of conduct allegations, the complainant can request support from the Office of the Dean of Students to adjust academic, residential, employment, and transportation circumstances. The University will strive to fulfill reasonable requests to the best of its ability if feasible. Additional measures to mitigate health or safety risks may also be implemented. The University reserves the right to contact a parent/legal guardian of a student who has been placed on interim suspension.

## IMPORTANT STATE AND FEDERAL LAWS AND LEGAL RIGHTS/RESPONSIBILITIES

While the Student Handbook focuses on the expectations from the University, those policies are predicated upon federal and state laws. Below are commonly referred to laws that impact a student while at the collegiate level and the opportunities for assistance on campus. It is expected that students follow all federal, state, and local laws.

### Student Right-To-Know and Campus Security Act (CLERY)

The University is in compliance with the federal Student Right-to-Know and Campus Security Act which requires Universities to disclose certain statistics and campus security policies. According to the requirements, data in these areas were tabulated beginning July 1, 1991, and reported

during the summer of 1992 and each summer thereafter. It is the University's policy to provide information concerning security services available on campus.

Campus crime statistics are available from the University's Department of Public Safety. Also, Enrollment Services makes available data on graduation rates, athletic participation rates, and financial support.

Pursuant to the Campus Sex Crimes Prevention Act, any member of the Western New England University community may obtain information provided by the Commonwealth of Massachusetts as to any registered sex offender who may be enrolled or working at the University by contacting the Department of Public Safety.

Western New England University provides annual statistics concerning criminal offenses reported to campus security authorities or local police agencies, as well as our security policies. Information can be found on the Department of Public Safety website at <https://www1.wne.edu/public-safety/clery-act-and-title-IX.cfm>

## Title IX of the Higher Education Amendments of 1972 as amended by public law 93-568

Sex Discrimination, including Sex-Based Harassment (as defined in Title IX) are not tolerated at Western New England. Western New England University complies with Title IX. Information about Title IX is [available HERE](#), by contacting the Title IX Office, and in Western New England University.

## Family Educational Rights and Privacy Act of 1974 (Buckley Amendment)

The Family Educational Rights and Privacy Act of 1974 (FERPA) affords students certain rights with respect to their education records. They are:

- The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the Registrar in Enrollment Services or other appropriate official written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- The right to request an amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights. Students may ask the University to amend a record that they believe is inaccurate or identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her

right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to University officials with legitimate educational interests. A University official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Higher Education; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another University official in performing his or her tasks. A University official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the University discloses education records without a student's consent to officials of another school in which a student seeks or intends to enroll. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202-5902

The items listed in the following paragraph may be released at the discretion of the University.

Under the provisions of the Family Educational Rights and Privacy Act of 1974 (as amended), students have the right to withhold the disclosure of any or all of the items.

Written notification to withhold any or all items must be directed to Enrollment Services by the publicized deadline.

Items: The student's name, address, telephone listing, campus email address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees, honors and awards received, current photo, and the most recent previous educational agency or institution attended by the student.

A request to withhold any or all of the above data in no way restricts internal use of the material by the University.

Only parents of dependent students have access rights to the records of students. In compliance with the Family Education Rights and Privacy Act of 1974 (as amended), the University reserves the right to disclose information about dependent students to their parents without a student's written consent. Information will not be released until the University is assured that the parent is entitled to such information.

Students have the right to review their disciplinary records, which are maintained by Enrollment Services. Students may challenge the content of those records which they believe to be inaccurate or misleading. In order to review records, students should make an appointment with Enrollment Services. In order to maintain the confidentiality of other students, Enrollment Services will review the file with the student in summary form. Duplicate copies of the file will not be issued to the student. More information can be [found here](#) on the WNE Enrollment Services webpage.

NOTE: Students and their parents/guardians receive notice of FERPA and their rights through receipt of the Student Handbook publication each year.

## Voter Registration Act (Massachusetts General Laws, Chapter 51, Sect. 42E)

The law requires all public and independent Universities, colleges, high schools and vocational schools to make available affidavits of voter registration forms wherever students register for classes. Massachusetts residents will find such forms in Enrollment Services in the D'Amour Library. Students who wish to register in another state may not use these forms. Out-of-state students who want to vote in their home state must use either a mail-in form supplied by an election official in the home state or the federal mail-in affidavit of voter registration. The latter may be obtained by writing or calling the Massachusetts Elections Division, Room 1705, McCormack Building, One Ashburton Place, Boston, MA 02108; 617-727-2828 or 800-462-8683.

## Massachusetts Hazing Policy (Massachusetts General Laws, Chapter 269, Sect. 17- 19)

- The Massachusetts General Laws state:
- Section 17: Hazing; organizing or participating; hazing defined. More information can be [found here](#).
- Section 18: Failure to report hazing. More information can be [found here](#).
- Section 19: Issuance to students and student groups, teams and organizations; report. More information can be [found here](#).

## The Massachusetts Clean Indoor Air Act (Massachusetts General Laws, Chapter 270, Sect. 22)

The Massachusetts Clean Indoor Air requires that smoking be prohibited at private Universities within the Commonwealth except in areas designated by the university as smoking areas. All indoor smoking is prohibited. See the University's Smoke Free Environment Policy.

## ACADEMIC POLICIES

(for a full listing of policies, please see [Academic Affairs | Western New England University \(wne.edu\)](#))

## Satisfactory Academic Progress (SAP)

Western New England University is required by federal regulations to establish a reasonable [Satisfactory Academic Progress policy](#) to determine whether an otherwise eligible student is making SAP in his or her educational program.

## Academic Advising and Student Responsibilities

The mission of the advising program is to foster a culture of student-centered collaboration to ensure holistic student support and personal development, so that each student's academic, life and career goals will be realized. Academic Advising is an essential component of the Western New England University culture, promoting success and personal development through a series of intentional and quality interactions between student and advisor. In this collaborative relationship, an advisor facilitates and supports the student who is an active and engaged participant in the process. Its fundamental purpose is to assist students with increased self-awareness, achievement of degree program learning outcomes, and a career focused plan for life after graduation.

Each first-year student is assigned a First-Year Advisor (FYA). This primary academic advisor is a faculty member normally associated with the student's college and plan of study. (Note: Through Student Life, each first-year student is also assigned a Peer Advisor, an upper-class student who serves as a mentor throughout the first year, and who helps new students to navigate the campus, connect to resources and find ways to get engaged through campus activities.) After the sophomore year and beyond, students are normally assigned or may choose a faculty major advisor according to the academic department in which the student's major is contained.

Each student also receives an assigned University Advisor (UA) in the Vanech University Advising Center, whom the student may consult as needed for the full term of undergraduate study (a replacement will be assigned if the University Advisor is no longer available to advise students). Students also have access to career advisors affiliated with their colleges of study. Academic advising is provided for part-time students through the appropriate college.

The ultimate responsibility for decisions on the student's academic choices and program of study remains with the student. Therefore, each student is responsible for understanding degree requirements and planning for orderly fulfillment of those requirements, including their General University Requirements. Students should also consult their faculty advisors to choose elective courses that both broaden and deepen their knowledge of disciplines that are important for success and well-being beyond the university experience.

## Academic Integrity

Honesty in all academic work is expected of every student. This means but is not limited to the following examples. It is required to give one's own answer in all class work, quizzes, and examinations without help from any source not approved by the instructor. Written material is to be the student's original composition. Appropriate credit must be given for outside sources from which ideas, language, or quotations are derived. Students are cautioned that purchasing term papers from any source is a violation of academic honesty. Dishonesty or withholding information in academic contexts is covered under WNE's Academic Integrity Policy. Students are responsible for [University policies and procedures regarding Academic Integrity](#). Typical sanctions are an F grade on the paper, or other work involved, or an F in the course as a whole. [Policies for](#)

[repeating](#) a course apply. In addition, repeated violations of the academic integrity standards may result in suspension or dismissal.

## Class Attendance

WNE has a [class Attendance Policy](#), including a [Policy for Student Absence due to Religious Beliefs](#). Notifications of absences for religious reasons should be provided in advance of the absence to the applicable instructor(s). Otherwise, students are expected to attend all class sessions for courses in which they are enrolled and should consult the policies established by the instructor for each individual course.

In the event that face-to-face classes cannot be held (for example, because of inclement weather or a facilities issue that closes a campus building), students should expect to attend classes virtually unless otherwise directed by their individual instructors or unless a full university closure is announced.

## Mid-Year and Final Examinations

WNE has [Policies for Midyear and Final Examinations](#) that clarify for students what to do in the case of conflicting scheduled final exams and where to find the final exam schedule to ensure that students do not schedule travel that conflicts with scheduled exams.

## Taking Coursework at Another College

Students wishing to take courses from outside WNE (or its consortium partner Acadeum) should comply with the [Policy for Taking Coursework at Another College](#). Grades for courses taken outside WNE are not factored into the calculation of the student's grade point average (GPA).

## Transcripts

Transcripts of students' academic records may be requested from [Enrollment Services](#).

# COLLEGE OF PHARMACY AND HEALTH SCIENCE ACADEMIC POLICIES

Students in the College of Pharmacy and Health Science should also consult the [Student Handbook](#) for the College of Pharmacy and Health Science.

## LAW SCHOOL ACADEMIC POLICIES

Students in the School of Law should also consult the [Student Handbook](#) for the School of Law.
